

COSEE-Pacific Partnerships is offering six internship opportunities to community college students interested in developing research and outreach skills through hands-on experience working with marine scientists and marine informal educators in Oregon and Washington. Interns will receive a \$2,000 stipend, and on-site housing will be provided.

## Oregon Internship Opportunities

### **Surf-zone hydrodynamics and the delivery of larvae to the shore.**

Advisor: Dr. Alan Shanks, Professor, Oregon Institute of Marine Biology, University of Oregon

### **Determining the role of sandy beach surf-zones as a habitat for juvenile Chinook salmon**

Advisors: Dr. Jessica Miller, Professor, and Jose Marin Jarrin, PhD candidate, Hatfield Marine Science Center, Oregon State University

### **Developing new ways to culture oyster larvae to overcome the effects of ocean acidification**

Advisors: Dr. Chris Langdon, Professor, Oregon State University, and Director, (MBP), and Kiril Chang-Gilhooly, Hatchery and Nursery Manager Program, Molluscan Broodstock Program, Hatfield Marine Science Center

### **Juvenile Gaper Clam Distribution Mapping**

Advisors: Dr. Leslee Parr, Shellfish Program Leader, and Mitch Vance, Shellfish Project Leader, Marine Resources Program, Oregon Department of Fish and Wildlife

**When:** June 20<sup>th</sup> – August 14<sup>th</sup>, 2010 (8 weeks)

**Requirements:** One year of science coursework at a community college

**To Apply:** Please submit the following materials by **Friday, April 16, 2010:**

1. Your Name, Mailing address, Telephone number, and Email address
2. A copy of your transcripts (informal copy acceptable)
3. A letter of recommendation from a faculty member
4. A one-page essay detailing your interests in marine science and outreach and why you are applying for this opportunity
5. List in order of preference the internships for which you would like to be considered

To: COSEE-PP PRIME  
Oregon Institute of Marine Biology  
PO Box 5389  
Charleston, OR 97420
